

G. Webster Ross, MD, is Associate Chief of Staff for Research and Development at the Veterans Affairs Pacific Islands Health Care System in Honolulu, where he also maintains a practice in clinical neurology. He is a clinical investigator at the Pacific Health Research Institute working on epidemiologic studies of neurodegenerative diseases of aging and correlating clinical findings with neuropathology. These studies involve the Honolulu-Asia Aging Study cohort established in 1965 at Kuakini Medical Center. He has been involved in clinical trials of symptomatic and potential disease modifying therapies for Parkinson's disease through the Pacific Health Research Institute, and is Clinical Professor of Neurology at the University of Hawaii John A. Burns School of Medicine.
